The Problem

When you're trusted with the secure storage of your customers' most valued possessions, you rely heavily on robust, secure and reliable 24/7 surveillance.

That was certainly the case for Kristan James, owner of Store More 365, a brand-new storage facility in Wauconda, Illinois.

First engaging SCW during the early construction phase, Kristan and her husband wanted to get ahead and put a solution in place so they could confidently open by their planned date of Spring 2023.

Providing the people of Wauconda with extra large units, wide drive aisles, and RV, boat and auto storage, they needed a complete security system, custom designed and built from the ground up. With no prior knowledge or experience with security systems, they chose to engage SCW based on its industry-leading solutions and proven track record in delivering easy-to-use, customer-focused solutions.

The Solution

Working with SCW team member, Brandt, extensive design and planning phases were undertaken to consider all key requirements for the storage facility.

The solution would focus on delivering a secure and scalable camera system that could be used across the entire facility while still on the same platform.

Brandt designed a full system to cover all their needs and gave them a clear projection of what they could expect through the use of site maps. The solution provided them with a single platform to manage all the cameras, streamlining the overall system layout and design.

Through a number of revisions, the 28-camera surveillance system delivered included:

21 x Warrior 8.0 - A Fixed Lens Mini Bullet Camera with Active Deterrence Lights, Speaker and Mic.

5 x Warrior 2.0 V3 - A 1080P 2MP Fixed Lens Mini Bullet Camera

2 x Archer 2.0 V2 - A 2MP Long Range, Low Light Bullet Camera with Motorized Zoom and Focus

The Solution

Using our Imperial line of NVRs, the system also included:

1 x Imperial 32 v2 - A 32 Channel 4K NVR

4 x 12TB Hard Drive - Rated for Surveillance

2 x SCW 16 Port PoE Switch with Extended Transmission

4 x SCW 8-Port POE

The Result

Navigating the challenges of launching a new business, Kristan James and her team at Store More 365 were in search of a security solution tailored to their specific needs. After nearly a year of collaboration, SCW, led by Brandt, successfully delivered a 28-camera surveillance system meticulously designed to meet the unique security demands of the Store More 365 facility.

The system was not just about the number of cameras but about ensuring that every corner of the facility, from the extra-large units to the wide drive aisles and the RV, boat, and auto storage areas, was under surveillance. This comprehensive coverage was essential for Kristan, ensuring that her customers' valued possessions were always under watchful eyes.

Kristan shared her experience: "Brandt has been a beacon of support throughout this journey. His dedication to understanding our needs meant that we didn't just get a generic system; we got one that was tailored for Store More 365. It was evident that he was more of a consultant than a mere salesman. The equipment we received was top-notch, and the value for the price was unmatched."

Even post-installation, the relationship didn't end. Brandt continued to offer his expertise, ensuring that Kristan and her husband felt confident in their security setup. Kristan added, "The level of customer service from SCW, especially from Brandt, has been exceptional. We know we made the right choice."

WHY SCW?

When you're trusted with keeping valuable items safe and secure, you need a robust, reliable solution that's easy to use, and easy to access.

With decades of experience and excellence, we understand how to deliver trusted solutions that are easy to install and even easier to use.

SCW services, supports, installs, consults, designs, and develops end-to-end solutions tailored to a client's needs, and is flexible enough to let you decide which offerings you need.

Built to last

SCW sells only commercial-grade equipment. This equipment is specifically designed for heavy use and scalability. With a large facility and extensive coverage required, the equipment installed was designed to deliver all day, every day.

Scalability

The systems available from SCW are designed, not only to meet the client's immediate needs, but to also be easily duplicated if [Store More 365](#) chose to scale.

After-sale service

The right equipment, combined with free, US-based, lifetime tech support, made SCW the perfect partner for [Store More 365](#).

Over 4,000 Five-Star reviews, with an average score of 4.9, say more than we can about the standards of our business practices at SCW.

All of the cameras installed for the project included SCW's standard 3-year warranty, with the ability to extend to five years.
